

2026

13 - 15 January 2026

King Abdulaziz International
Conference Centre

Riyadh, Saudi Arabia

OFFICIAL EVENT BROCHURE

Dawn of a global cause: Minerals for a new age of development

ORGANISED BY

ENDORSED BY

Since its maiden edition in 2022, the Future Minerals Forum (FMF) has grown in leaps and bounds to become the leading global platform for shaping the future of minerals. Now in its 5th edition, **FMF 2026, themed “Dawn of a Global Cause,”** will build on the momentum of past editions to drive a new age of mineral development across supplier countries.

Dawn of a Global Cause will convene senior governments, industry experts, investors, academia, government, and non-governmental organizations, and other stakeholders across the entire mineral value chain to promote resilient and responsible supply of minerals.

The forum will facilitate agreements, launch transformative initiatives, and spark dialogues reshaping the future of minerals.

FMF is more than a conference and exhibition; it is a government-led forum, a cause driven from Saudi Arabia—a cause that brings the world together to deliver the minerals for creating a new era of global development, prosperity, and stability.

MISSION, PURPOSE AND OBJECTIVES

MISSION

To convene leaders from government, business, multilaterals, NGOs, academia, and trade associations in a government-led, action-focused, and multistakeholder platform. FMF is committed to driving tangible outcomes that enhance the global minerals ecosystem and advance the electrification goals.

PURPOSE

Enable the creation of resilient and responsible mineral value chains in supplier regions for a new age of global development.

FMF is a catalyst for sustainable growth, ensuring that mineral-rich regions can fully benefit from their resources.

OBJECTIVES

1.

Create an inclusive, multistakeholder space bringing together leaders from around the world to enable a new age of development and prosperity in supplier countries.

2.

Position Saudi Arabia as a global hub for minerals and metals production and trade.

3.

Attract investments to develop resilient mineral value chains across supplier regions, ensuring global access to critical minerals.

For the third time, I am delighted to attend the **Future Minerals Forum**, which has shown remarkable progress year after year.

– **Paul Chanda Kabuswe**

Minister of Mines and Mineral Development, Zambia

LEVERAGING THE UNIQUE POSITION OF THE KINGDOM OF SAUDI ARABIA

Saudi Arabia has positioned itself as a leader in the global minerals and energy sectors, not only through its vast natural resources but also by fostering a global dialogue on sustainable mineral supply.

With Vision 2030, the Kingdom has accelerated investments in green technologies, sustainable mining practices, and international collaborations that are shaping the future of the industry.

The highly anticipated 5th edition is scheduled to take place from January 13 – 15, 2026, in Riyadh, Saudi Arabia.

FMF reflects the Kingdom's ongoing commitment to advancing international cooperation across the global mineral value chain.

FMF will facilitate knowledge sharing and technology transfer, encouraging attendees to create meaningful international partnerships and initiatives that can inspire new ways of thinking and drive forward a unified effort to make sustainable mineral supply a common path for global energy transition conversations.

“The Future Minerals Forum has become a pivotal global platform where decision-makers gather to exchange ideas, expertise, and explore ways to improve the mining sector worldwide”.

– Gilles Nembe
Minister of Mines, Gabon

ADDRESSING REALITY

Mineral demand is rising, and it will not slow down. Without strong partnerships across the value chain, the industry is projected to struggle in meeting the growing global demand.

Taking place in Saudi Arabia, FMF is the world's go-to platform for collaboration, trust-building, and decisive action among global stakeholders.

WHAT TO EXPECT AT FMF 2026

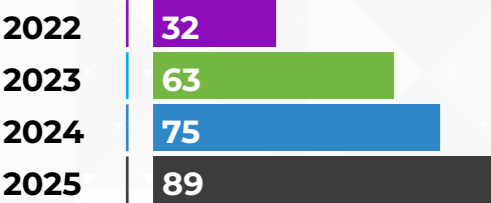

The 5th edition of FMF will feature specialized themes and dynamic showcases centered around the most critical topics shaping the global minerals industry.

FMF 2026 provides a platform for leaders, innovators, and investors to connect, collaborate, and shape the future of minerals, driving resilience and responsible supply.

THREE DAYS. ENDLESS POSSIBILITIES. ONE UNFORGETTABLE EVENT.

The 5th FMF will feature a dynamic and comprehensive three-day agenda that bridges policy and practice, brings together thought leadership with business, and connects nations with industry.

From January 13 to 15, 2026, attendees will have the opportunity to hear from policymakers, business executives, and industry leaders.

January 13:

On this invitation-only event, senior government leaders from supplier and customer nations will convene to shape the future of minerals. Through high-level dialogue, ministers will align visions and forge pathways to unlock a resilient, responsible, and globally integrated minerals future.

FMF Day 1 January 13:
Days 2 and 3, January 14 & 15:
 Dive into a rich program that spans the entire mineral value chain, offering open discussions, networking opportunities, and knowledge exchange.

An exclusive, by-invitation-only Ministerial Roundtable will set the tone under the theme: **“Minerals for a New Era of Development.”** Focused on leadership, action, and the introduction of new voices, it frames the dialogue by bridging public sector strategies with private sector priorities across the global mineral ecosystem.

Select theaters and exclusive content sessions will run in parallel with the International Exhibition and National Country Showcases beginning **14 January**. This program connects intellectual debate with commercial ambition—enabling impactful partnerships between governments, investors, and industries.

A STAKEHOLDER ENGAGEMENT

FMF brings together a diverse group of stakeholders, including:

Government representatives

Business leaders

Multilateral organizations

Non-governmental organizations (NGOs)

Academic institutions

Trade associations

In these turbulent times, partnerships are our strongest asset. This imbalance presents significant investment opportunities.

– **Dominic Barton**
Chairman, Rio Tinto

WHY PARTICIPATE?

1.

Connect with global leaders and decision makers from the full value chain across critical minerals and energy sectors

2.

Explore opportunities for partnerships, investments, and collaborations.

3.

Gain insights from thought leaders on the future of minerals and sustainable value chains.

4.

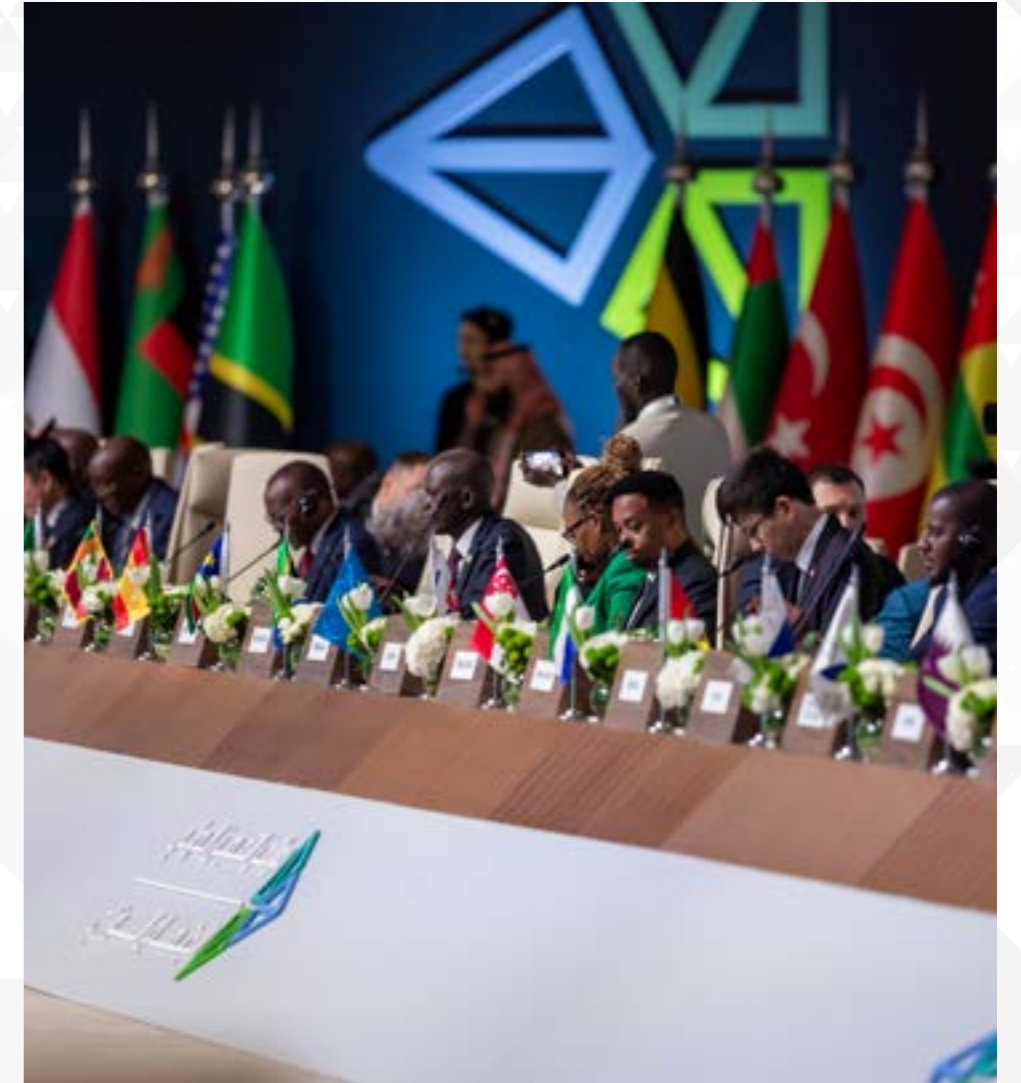

Be part of a cause that is driving a new era of global development and prosperity.

5.

FMF offers unrivalled access to global decision-makers, breakthrough innovations, and transformative technologies across the entire minerals value chain.

A PLATFORM DRIVEN BY KNOWLEDGE, PARTNERSHIP AND ACTION - MINISTERIAL ROUNDTABLE

The Ministerial Roundtable at FMF is a high-level gathering of government leaders focused on leadership, action, and the exchange of new ideas.

“

I would like to express my sincere gratitude to our Saudi partners for organizing this exceptional event, which provides a significant opportunity to meet with global mining industry leaders and foster international collaboration.

– **Kanat Sharlapaev**

Minister of Industry and Construction, Kazakhstan

”

89 GOVERNMENTS PARTICIPATED IN THE MINISTERIAL MEETING

TACKLING THE TOUGH ISSUES - LEADERSHIP CONFERENCE

FMF's conferences and theaters provide a space for thought-provoking discussions, keynotes, and panels covering emerging trends and pressing challenges in the minerals industry. This platform enables knowledge sharing and strategic dialogue.

FMF 2026 will feature an expanded intellectual agenda with more impactful themes, broader participation, and solutions-driven dialogues.

“

We are all committed to finding the right balance between securing the minerals essential for our growth and energy transition and ensuring that our investments have a positive economic and social impact on the communities involved. Together, through responsible actions and innovative solutions, we can overcome the challenges and seize the opportunities in the mining sector.

– **H.E. Bandar Alkhorayef**

Minister of Industry and Mineral Resources, Saudi Arabia

”

EARLY CONFIRMED SPEAKERS INCLUDE

Dr. Kwasi Ampofo,
Head of Metals and Mining,
BloombergNEF

Dr. Gracelin Baskaran,
Director, Critical Minerals
Security, Center for Strategic and
International Studies (CSIS)

Guy Goulet,
Chief Executive Officer,
Cerro De Pasco Resources

Turki Alshehri,
Regional Vice President GCC,
Engie

Helena Hedblom,
President & CEO, Epiroc AB

Frank Giustra,
Chief Executive Officer and
President, Fiore Group

Tristan Pascall,
Chief Executive Officer,
First Quantum Minerals

Garry Korte,
Group Chief Executive Officer,
Hancock Prospecting

Adam Lundin,
Chair, Lundin Mining Corporation

Gareth Penny,
Chairman, Ninety One

Michael Steinmann,
President & Chief Executive
Officer, Pan American Silver

Chris Gratias,
Executive Vice-President Strategy
& Corporate Development,
Gold Fields Limited

Jos Simon,
Chief Executive Officer, Tavistock

Craig Miller,
Chief Executive Officer,
Valterra Platinum

Dino Otranto,
Chief Executive Officer,
Fortescue Metals

Iván Arriagada,
Chief Executive Officer,
Antofagasta Minerals

Mark Cutifani,
Former CEO, Anglo American

Melissa 'Mel' Sanderson,
Board Member,
American Rare Earths

Dennis Gibson,
Chairman, Critical Minerals
Association USA

Mzila Mthenjane,
Chief Executive Officer, Mineral
Councils South Africa

Dinah McLeod,
Director General, Cobalt Institute

David Awram,
Co-Founder and Director,
Sandstorm Gold Royalties

Bill Oplinger,
President and Chief Executive
Officer, Alcoa

Máximo Pacheco,
Chairman, Codelco

Matt Fifield,
Managing Partner,
Pacific Road Capital

Dominic Raab,
Head of Global Affairs, Applan
Capital Advisory

Pierre Gratton,
President and Chief Executive
Officer, Mining Association of
Canada (MAC)

Beyers Nel,
Chief Executive Officer,
Harmony Gold

Alejandra Cardona,
Executive Director, CAEM

Roland Chavasse,
Secretary General, International
Lithium Association

Dr. Mark Bristow,
President & Chief Executive
Officer, Barrick

Jay Hambro,
Chief Executive Officer,
Verdigris Strategic

Matthew Chamberlain,
Chief Executive Officer, The
London Metal Exchange

Brian Menell,
Chairman and CEO, TechMet

Bob Wilt,
Chief Executive Officer, Maaden

Jim Paterson,
Principal, Discovery Group

Marc Winterhoff,
Interim Chief Executive Officer,
Lucid

Martin Valdes,
Partner, Head of Private Equity,
Resource Capital Funds

Jai Shroff,
Chairman and Group CEO, UPL

Jianfeng Liu,
Chairman & Chief Investment
Officer, CMOC

Wang Xiaoshen,
Vice Chairman & President,
Ganfeng Lithium

Dr. George Q. Fang,
Vice Chairman,
Executive Vice President,
Zhejiang Huayou Cobalt Co

Robert Friedland,
Founder, Ivanhoe Mines,
Ivanhoe Electric and I-Pulse

Walter Precourt,
Senior Vice President and Chief
Administrative Officer, Mosaic

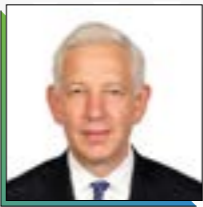

Yahiya Al Shangiti,
Chief Executive Officer, ARGAS
(Arabian Geophysical & Surveying
Company)

Dr. Gillian Davidson,
Chair of the Board, Global Battery
Alliance

Shaoyang Shen,
Vice President, Zijin Mining Group

Dominic (Dom) Barton,
Chair, Rio Tinto

Catherine Raw,
Chief Development Officer, BHP

Don Lindsay,
Board Member, BHP

LEADERSHIP ROUNDTABLES: POWERING GLOBAL GROWTH

FMF26 will convene high-level Leadership Roundtables, spotlighting Africa, Central Asia, and Latin America - regions rich in resources yet underrepresented on the global stage.

These exclusive roundtables bring together governments, investors, and industry leaders from resource-rich countries to unlock new partnerships, shape regional strategies, and build a unified voice in the global minerals conversation with the goal of creating a unified global minerals movement.

KNOWLEDGE EXCHANGE

Following its first hugely successful year at FMF, the 2026 event will see its second ever Knowledge Exchange.

This is a dedicated space for in-depth discussions on advancements in geology, sustainability, mineral intelligence, and talent development, fostering the exchange of ideas to strengthen the industry's future.

CENTERS OF EXCELLENCE & TECHNOLOGY MEETING

FMF26 will host the 2nd edition of the Centers of Excellence & Technology initiative, gathering industry leaders and experts from the mining, academic, and technological sectors.

The forum will host four strategic meetings focused on Technology, Sustainability, Talent, and Policy.

INTERNATIONAL GEOLOGICAL SURVEY MEETING

FMF26 will welcome geological experts and senior leaders of geological surveys to the third International Geological Survey Meeting.

The agenda will focus on addressing critical challenges in geological surveying, enhancing access to geological data, and updating progress on the establishment of a global Center of Excellence aimed at improving exploration and targeting efforts.

Saudi Arabia and its neighboring countries in the Super Region of Africa, Western and Central Asia, are home to a significant portion of the world's critical mineral deposits essential for the global energy transition. This unique geological landscape contains over half of the global reserves of minerals vital for this energy shift. Despite its immense potential, the region remains under-explored, with the lowest exploration expenditure of any region worldwide.

Participants at the meeting will therefore work towards gaining a better understanding of the Super Region's geological potential, and the surveying capability challenges that exist around the world.

Without having identified exactly where the minerals are located, to what degree of certainty they occur, and without the ability to create reliable geological data on which investors can base decisions, the world risks not being able to produce enough material to meet its vast demand.

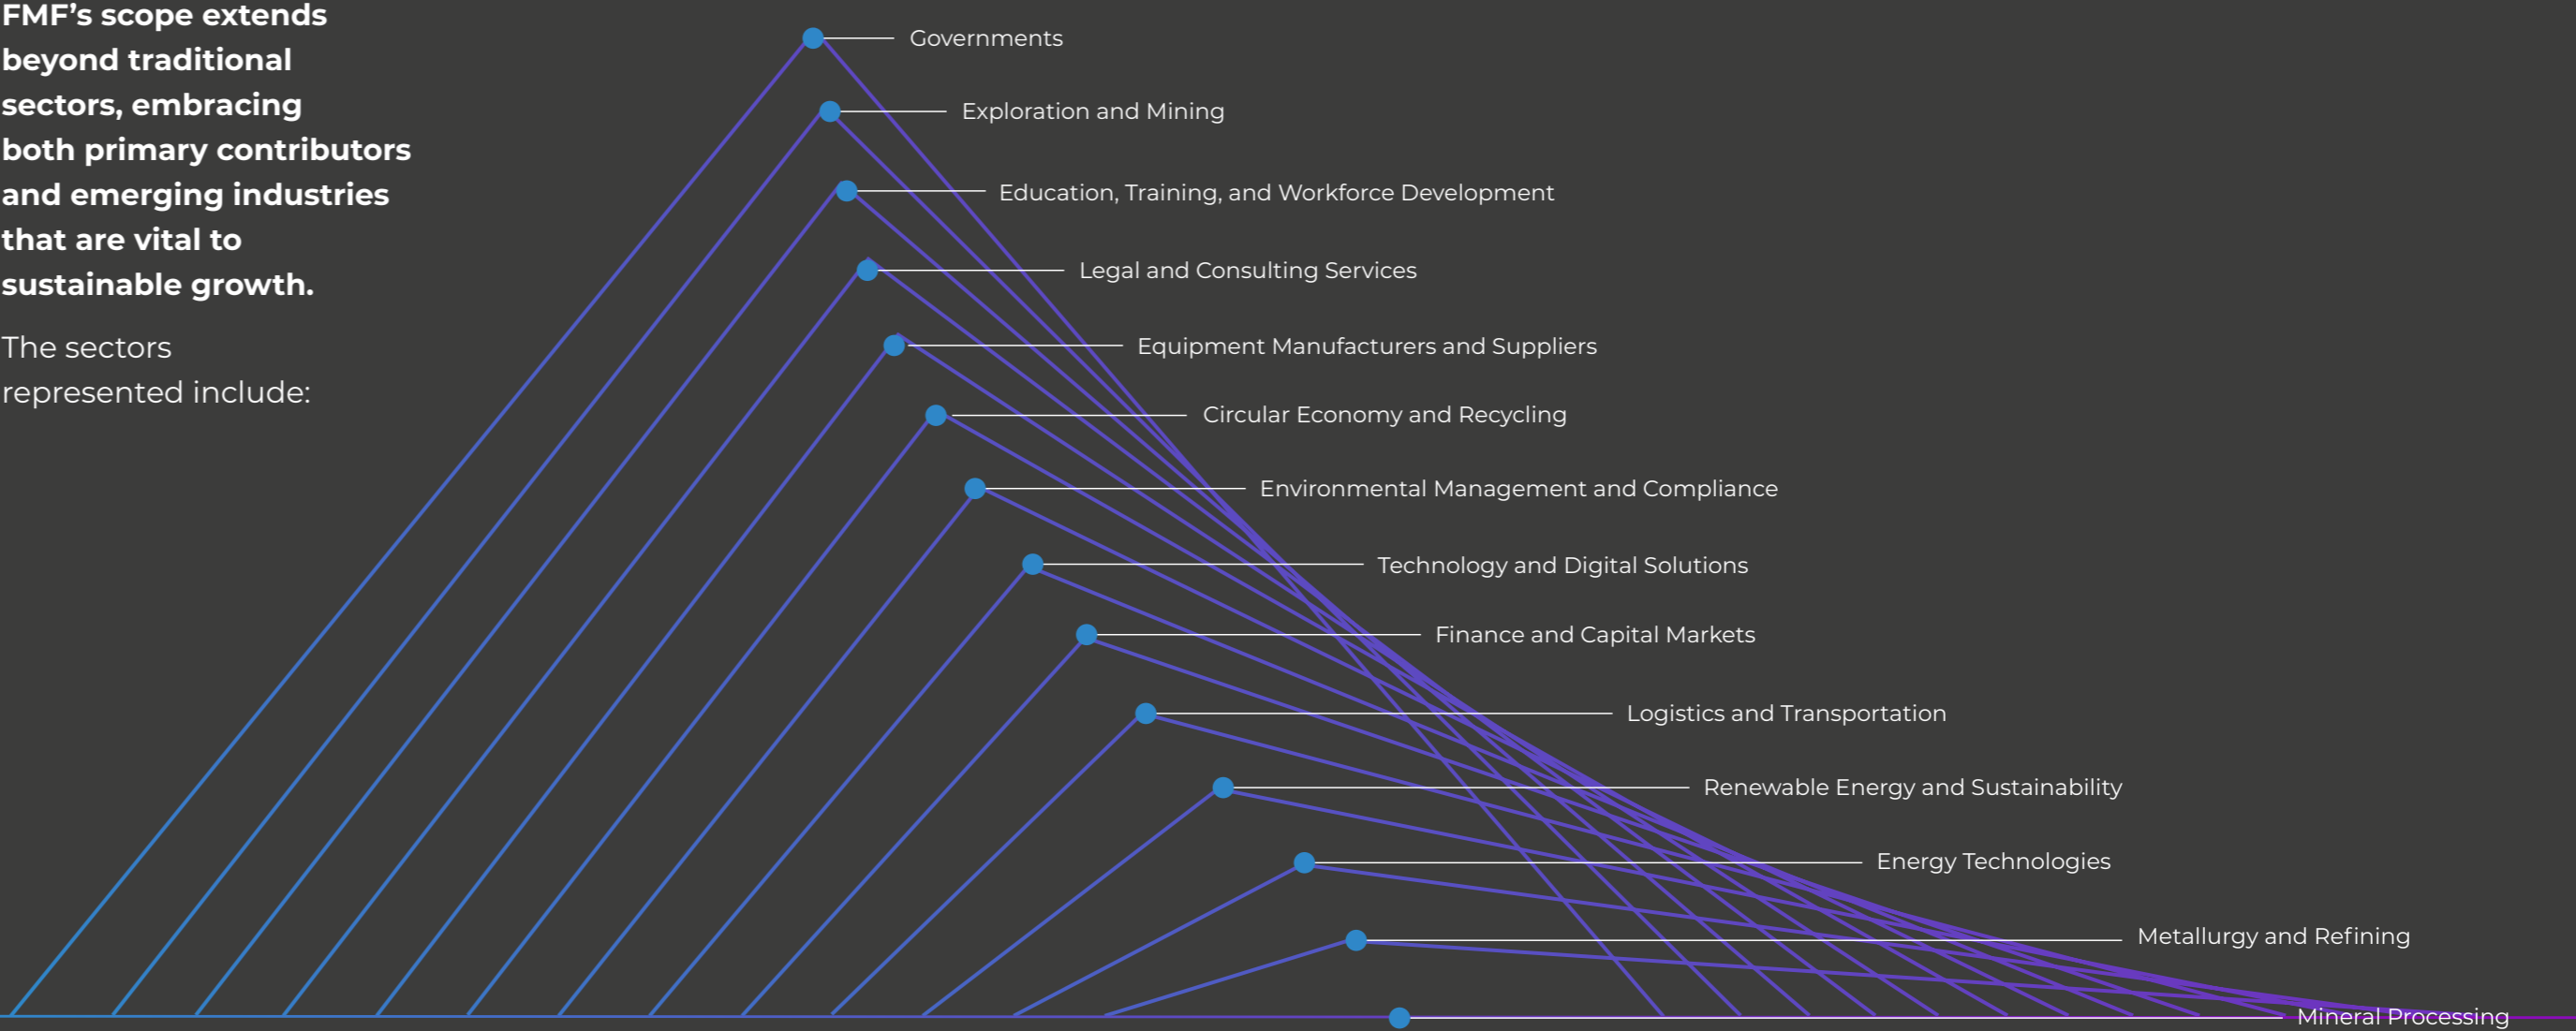

The IGSM reflects the critical importance of the geological perspective in delivering what the world needs to achieve a sustainable future.

THE FMF INDUSTRY LANDSCAPE

FMF's scope extends beyond traditional sectors, embracing both primary contributors and emerging industries that are vital to sustainable growth.

The sectors represented include:

COUNTRY SHOWCASE

Explore the unique mineral potential, strategic projects, and investment opportunities of participating nations.

The National Country Showcases bring together individuals, companies, and countries, providing a platform to explore new markets, establish connections, and create frameworks for cross-border partnerships and initiatives that drive tangible impacts on the global mineral supply.

In its 5th edition, FMF amplifies this platform to help forge even more powerful international alliances and bolster trade ties.

SPONSORS AND EXHIBITORS IN 2025

WHY GLOBAL STAKEHOLDERS INVEST IN FMF

Making Impacts

FMF and its government-led Ministerial Roundtable have impacted the minerals industry by turning talk into action through the following initiatives:

1.

Gain exclusive insights into the latest developments in the global minerals, mining, and metals sectors.

2.

Establish connections with senior government officials, industry leaders, and global stakeholders.

3.

Explore partnership opportunities with leading organizations and emerging market players.

4.

Discover new markets, investment opportunities, and strategic collaborations.

5.

Access cutting-edge technologies and innovative solutions shaping the future of the minerals industry.

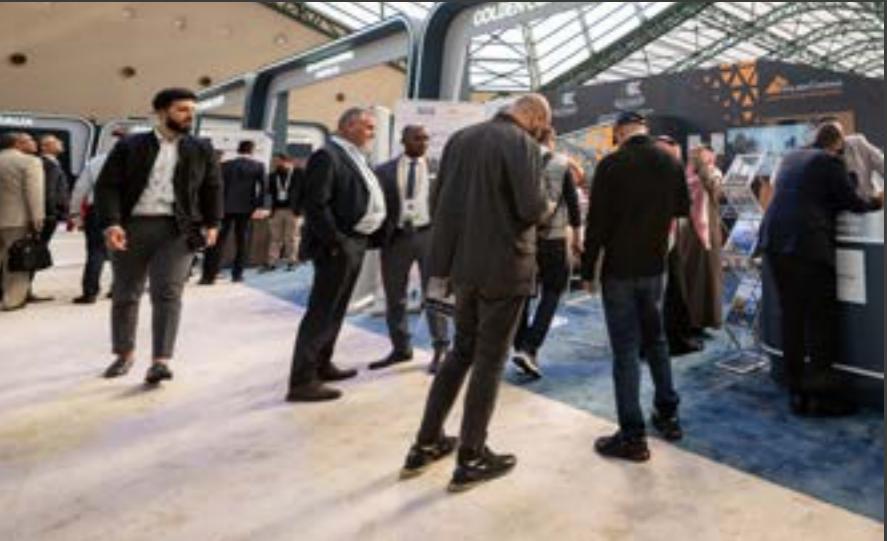

6.

Engage in high-level discussions on global challenges and emerging themes in the sector.

7.

Experience Saudi Arabia's leadership in driving global dialogue and collaboration on responsible mineral value chains.

FMF remains a pivotal meeting point for the global minerals community.

NEW LANDS OF OPPORTUNITY

Future economic growth and prosperity require a robust supply of minerals and metals. The demand for metals such as copper, steel, and aluminum will exponentially increase to meet our growing need for essential materials for the energy transition.

In order to meet this growth in demand, it is crucial to ensure that the capacity and logistics of mineral and metal value chains keep up.

The adoption of ‘green metals’, and the establishment of ‘industrial hubs’ in an emerging minerals ‘super region’ spanning from Africa through Western and Central Asia, will play an important role in the future development of resilient supply chains for minerals and metals.

These countries possess substantial resource endowments that serve as a strategic foundation for the critical minerals needed for our future. By joining forces, they can increase their sustainable development opportunities through the creation of new mining, metals and manufacturing industries.

PAST PARTICIPANTS FROM AROUND THE WORLD

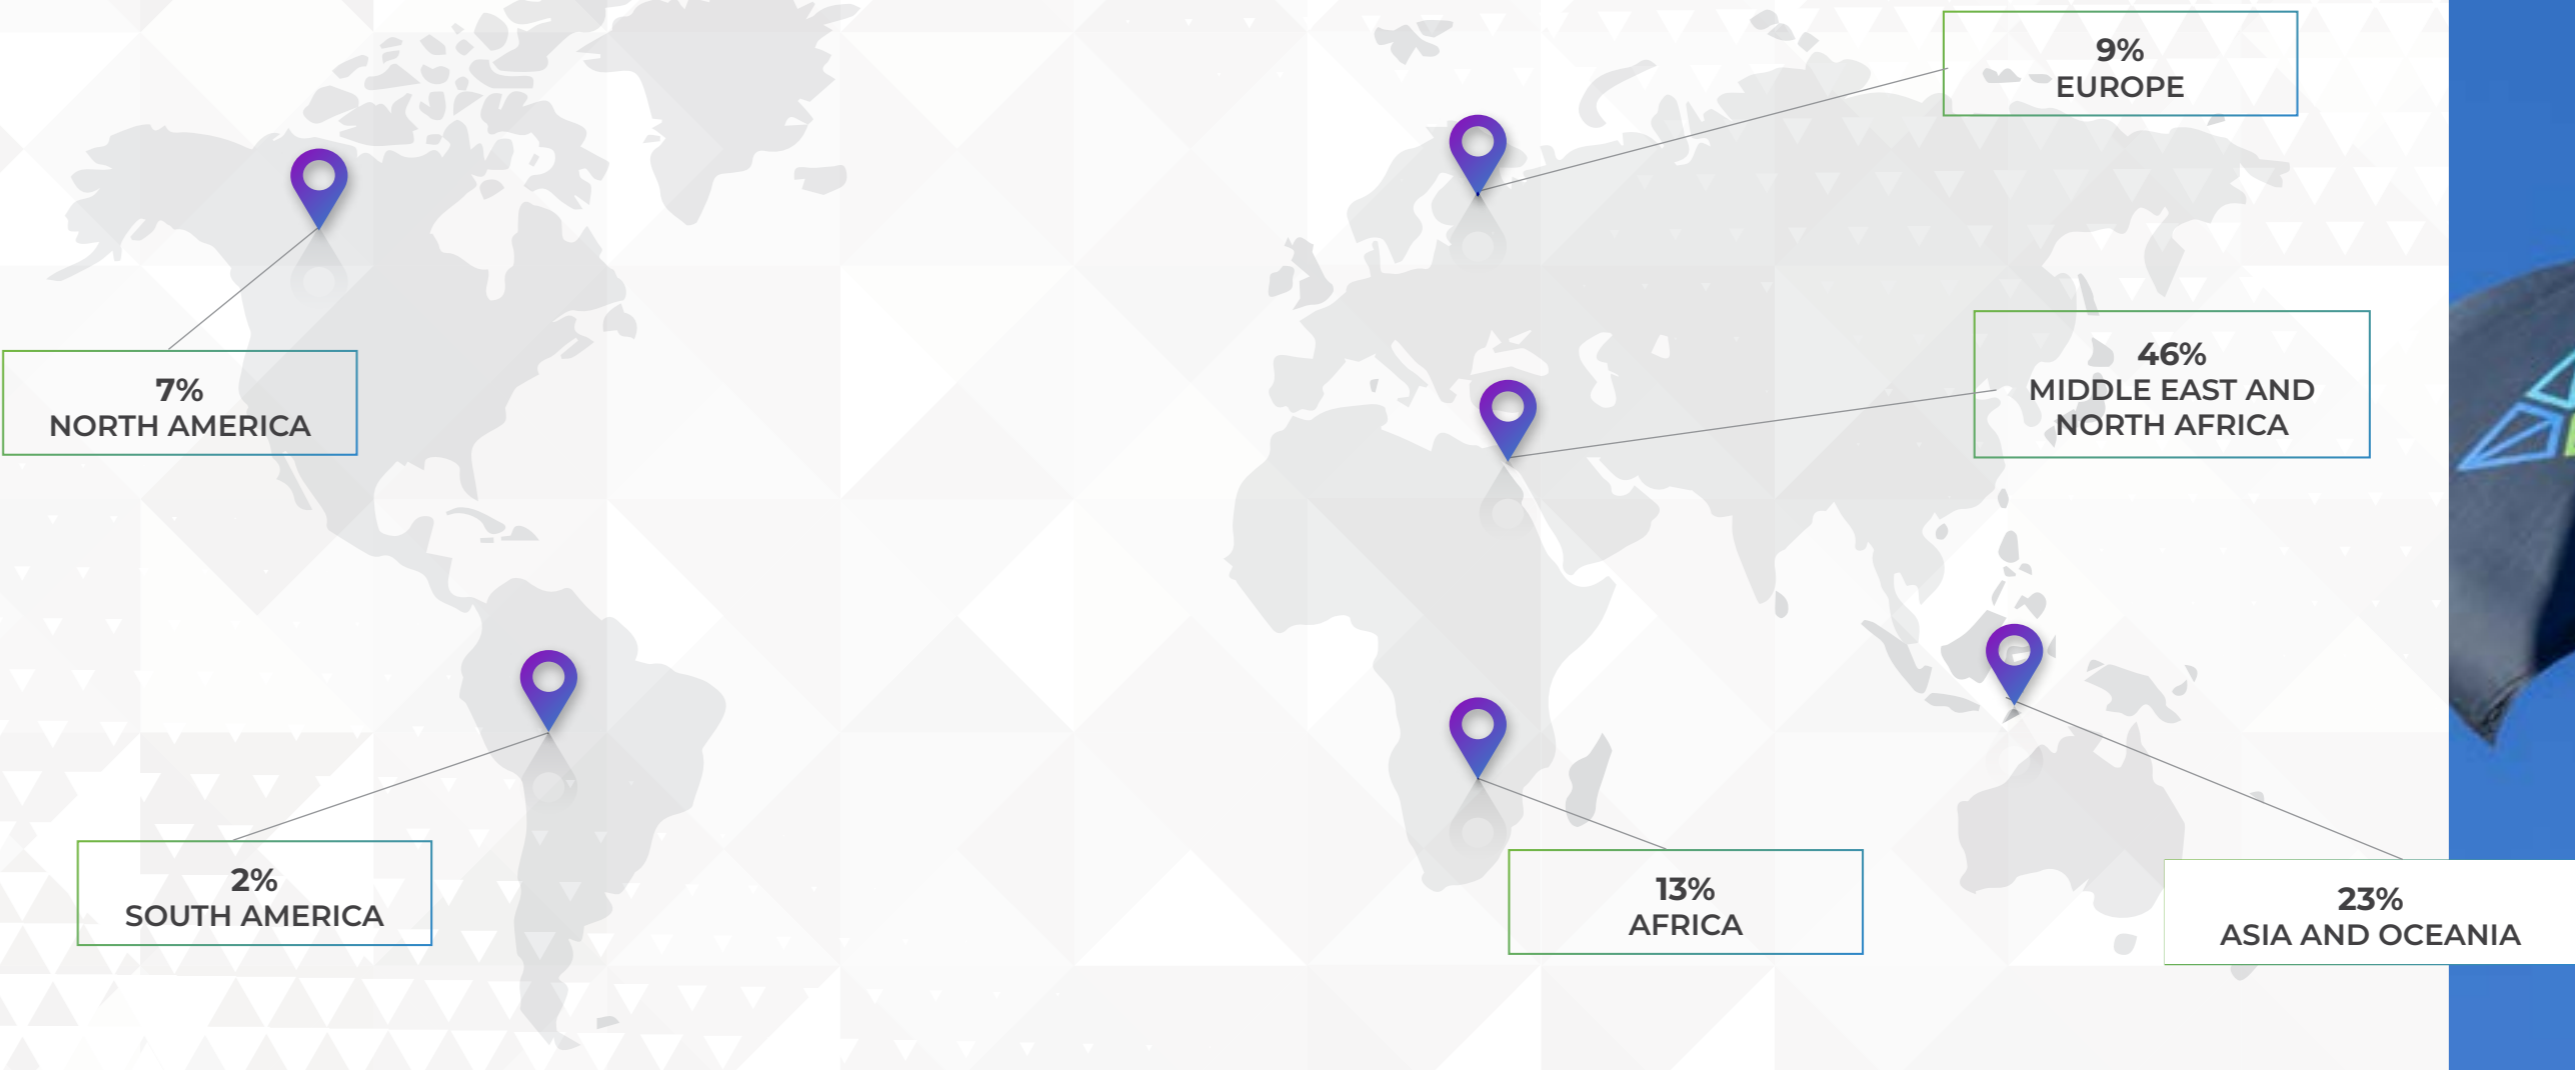

EXHIBIT AT THE CENTRE OF INDUSTRY INFLUENCE

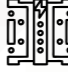

Exhibitors at FMF26 can look forward to showcasing their businesses and minerals-related activities to a global audience of around 20,000 attendees from more than 160 countries—each united by a shared goal of shaping the future of minerals.

This truly international exhibition also offers a platform for national pavilions to highlight and showcase the opportunities in their countries' mining and mineral sectors.

20,000+
GLOBAL
AUDIENCE
AT FMF25

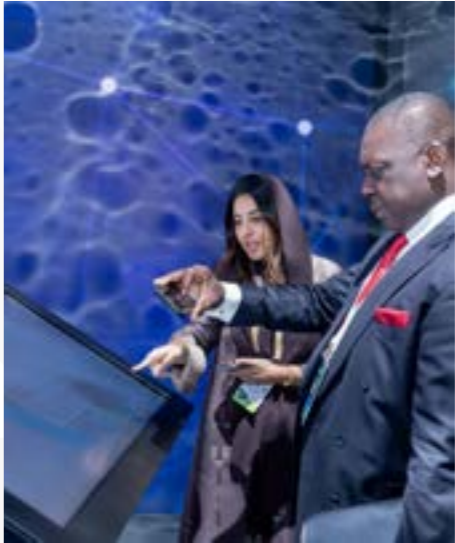

SECTORS REPRESENTED AT THE EXHIBITION

 Government	 Mining & Exploration	 Automotive	 Downstream	 Analytical	 Sustainability
 Data Systems	 Electrification	 Engineering	 Construction & Infrastructure	 Consulting	 Equipment & Tools
 Health & Safety	 Water Usage	 Logistics & Transport	 Automation & Digital Transformation	 Fuel Cells & Batteries	 Refining & Processing
 Manufacturing	 Circular Economy	 Artificial Intelligence and Machine Learning			

MINERAL EXPLORATION HUB

Future Minerals Forum 2026 will again provide a stage for junior exploration companies, or junior mining companies that specialize in early-stage mineral exploration and development.

Such companies are playing an important role, identifying and appraising potential mining assets that could help to ensure supply stability of critical minerals, and the Mineral Exploration Hub provides them with a valuable opportunity to connect with potential investors.

Mineral Exploration Hub
Participants Include:

HUB OF EXCELLENCE

Exhibitors within the FMF 2026 Hub of Excellence will spotlight technology organizations that embody industry excellence.

These innovations are tailored towards making mining safer, more efficient, and more productive, paving the way for a modern mining sector capable of supplying the critical minerals needed for global development and electrification.

Hub of Excellence Participants Include:

OUTDOOR INDUSTRY IMPACT ZONE

Experience the future of transport in the mining and minerals sector with an exclusive preview of next-generation heavy-duty trucks and advanced terrain vehicles, purpose-built for the world's toughest environments.

Witness live demonstrations of breakthrough designs, explore transformative technologies, and engage with the experts redefining mobility in mining. From advanced engineering to real-world performance, this is where innovation hits the ground running.

LIVE ONSITE FMF TV

FMF TV, the Forum's very own exclusive video channel, will be broadcast to a global audience via YouTube and social media.

Featuring a range of senior voices from the industry, from mining CEOs to tech leaders and government ministers, FMF TV is filmed in a dedicated studio space within KAICC, staffed by a professional industry crew and anchored by an accomplished presenter with broad expertise in journalism.

GLOBAL CONNECT: SMART, CURATED, AND BUILT FOR DEAL-MAKING

With collaboration at its core, FMF26 introduces FMF Global Connect — an AI-powered platform that turns connections into opportunities.

FMF Global Connect helps delegates identify and engage with the people who matter most to their business, using intelligent filters and concierge support to ensure every meeting is relevant, high-value, and easy to manage. Whether forging new partnerships or advancing strategic deals, it makes it simple to schedule targeted meetings and unlock meaningful conversations.
